EDUCATION

California State University - Long Beach <i>Bachelor of Science in Computer Science (AI/ML Track)</i>	Long Beach, CA Aug. 2023 – Dec. 2026
Hanyang University <i>Hanyang International Winter School</i>	Seoul, South Korea Dec. 2025 – Jan. 2026
Long Beach City College <i>Undergraduate in Computer Science</i>	Long Beach, CA Aug. 2021 – Jun. 2023
University of California - Berkeley <i>Undergraduate in Computer Science</i>	Berkeley, CA Aug. 2020 – May. 2021

EXPERIENCE

Instructional Student Assistant - CSULB <i>Python, SQLite</i>	Aug. 2025 – Present
- Developed a lightweight SQLite database and app to monitor, fetch and pull grades from Zybooks to Canvas. - Automatic retrieval and creation of emails to warn professors and students about home works.	

PROJECTS

MinervaCraft - AI Bot <i>Python, OpenAI API, Gemini, Ollama</i>	Oct. 2024 – Mar. 2025
- Developed a multi-modal AI to play Minecraft with players and other agents using any local or API model. - Used various APIs like OpenAI, Gemini, Grok to handle player to model chat. - Used Docker to container models in order to run multiple independent bots asynchronously.	
Himiko - Discord AI <i>Python, OpenAI API, Llama, HuggingFace, Discord</i>	Jan. 2024 – Current
- Developed a multi-modal Assistant using OpenAi, Ollama, and Mixtral, to interface with Discord. - Implemented DeepL and Whisper to transcribe text and stream to inference models. - Created custom text-to-speech synthesizer using StyleTTS2 for unique voice.	
Minecraft: Odyssey <i>Kotlin, PaperAPI, Java, Blockbench</i>	Jun. 2022 – Jul. 2023
- Developed a Minecraft server plugin with Kotlin and the PaperAPI for Java servers. - Published plugin to websites and hosted on servers with 40+ active members. - Implemented Dropbox API to handle server side downloads to client	
Invictus Game <i>Python, Pygame</i>	Aug. 2021 – Dec. 2021
- Developed a tactical turn based game using Pygame. - Demonstrated the use of UV mapping for 2D images using palettes and indexing.	

ACTIVITIES

Association of Computing Machinery - Design Lead <i>California State University - Long Beach</i>	Aug. 2023 – May. 2024 Long Beach, CA
- Head of multiple design projects that involve the Computer Science Department. - Managed a project that allows clubs to post their information on a central website. - Managed a project for authentication of students and guests for clubs' discord. - Designed media and promotion material for club general body meetings and large events like Beachhacks.	
Paul Merage: Future Leaders Initiative - Student <i>University of California - Irvine</i>	May. 2023 – Aug. 2023 Irvine, CA
- Participated in a leadership program that emphasizes emerging technologies in the work field. - Presented to the Mayor of Irvine, NVIDIA Vice-President, and other industry executives at graduation. - Led leadership exercises with fellow students regarding land management. - Connected with fellow students to establish a network of mentors and support.	

TECHNICAL SKILLS

Languages: Python, Kotlin, Java, Typescript, JavaScript, C/C++, HTML/CSS
Frameworks: Node.js, React, Next, Svelte, SvelteKit
Developer Tools: Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ, Asesprite, Blockbench
Libraries: OpenAI API, Ollama, pygame, pandas, Paper API, NumPy
